

Anish Bhattacharjee

Computer Science Undergraduate

Assam, India | +91 8011791812 | anish.hlv@gmail.com | linkedin.com/in/anish-bhattacharjee-8b00083b5 | github.com/anish-hlv

Education

Vellore Institute of Technology

Bachelor of Technology in Computer Science and Engineering

2023 – 2027

Specialization: AI/ML | CGPA: 8.3

Technical Skills

Languages: Python, C++, Java, JavaScript

Web Technologies: HTML5, CSS3, React.js, Node.js

Databases: SQL, MySQL

Projects

Chef Claude – AI Recipe Generator

React.js, JavaScript, Claude API

tinyurl.com/Claude-Chef

- Built a React application that accepts available ingredients and integrates with the Claude API to generate personalized, context-aware recipe suggestions in real time.
- Implemented user input handling and dynamic rendering of AI-generated responses using reusable React components, focusing on clean state management and responsive layout.

E-Commerce Web Application – In Progress

HTML, CSS, JavaScript, React.js

tinyurl.com/Ecommerce-Clone

- Developing an e-commerce application inspired by modern shopping platforms while learning React component architecture, routing, and interactive UI development.
- Using the project as a sandbox to experiment with new frontend concepts such as cart state management and product filtering, progressively expanding its functionality.

Real-Time Water Quality Checker

HTML, CSS, JavaScript, AI-Assisted Development

tinyurl.com/water-quality-checker

- Built an interactive web application for presenting and interpreting water-quality information through a clean, user-friendly interface accessible to non-technical users.
- Used generative AI extensively for implementation, debugging, iteration, and rapid prototyping, gaining hands-on experience with AI-assisted development workflows.

Internships & Training

Advanced Software Engineering & Development Internship

MPOnline – Government of Madhya Pradesh & TCS Joint Venture

- Gained structured, industry-oriented exposure to the software development lifecycle, including requirement analysis, coding practices, and collaborative project workflows under a government-industry joint venture.

AI/ML Internship Program

MPOnline – Government of Madhya Pradesh & TCS Joint Venture

- Worked on foundational AI/ML concepts and applied machine learning workflows as part of a joint government-industry training program, strengthening practical understanding of the AI/ML specialization pursued academically.

Extracurricular Activities

Core Member & Founding Member – NorthEast Club

Vellore Institute of Technology, Bhopal

- Helped establish a cultural community for NorthEast students on campus, organizing events and fostering a sense of belonging for students far from home.
- Actively participated in Bihu and other regional cultural performances, helping represent and promote NorthEast Indian heritage within the university community.

Guitarist & Guitar Teacher

Independent

- Perform Bihu and Rabindra Sangeet at local cultural events, blending traditional regional music with contemporary guitar arrangements.
- Teach guitar to fellow hostel students through paid one-to-one lessons, developing communication, patience, and structured teaching skills alongside musicianship.
